Director of Athletics Moran Thinks the Team Will Make Good Record.

GOLDEN IS DOING WELL FOR GEORGETOWN VARSITY

Former Blue and Gray Prep Bids Fair to Make a Regular Berth.

BY H. C. BYRD.

The Catholic University eleven is showing a lot of improvement, according to Director of Athletics Charley Moran. The team as a whole is developing rapidly on the offensive and de fensive, and in its remaining contests should be able to put up strong fights. Says Moran, relative to the prospects of the Brooklanders:

"While I hardly hope for the team to accomplish anything wonderful this season it looks very much as though we will get at least an even break in our games. The eleven showed a lot of improvement from the time we played M. A. C. till we met St. Johns, and there is every reason to believe that the progress will be just as steady

A practice scrimmage has been arranged between the Business High School and the Maryland Aggies for today. If the high school team agrees, it is more than likely that a regular contest will be played with the Farmers' reserves. The Aggies have several inexperienced but rather heavy men on their second squad who need to get some of the real play to develop, and for them to meet high and prep school elevens is about the only way they will ever become acquainted with conlitions as they are in a regular conlitions as they are in a regular con-

Hugh Golden is proving the surprise
of the foot ball season at Georgetown.
The former Blue and Gray prep school
oungster is coming through in great
tyle for the varsity eleven, and bids
air to make a regular berth. Golden
as hardly expected to be capable of
olding a job on the first team when
e reported for practice, but so well
nas he been doing that it will be an
extremely difficult matter for any of
the other men to take a regular posion away from him.

Jack Downey won the five-mile race eld by the Carroll Institute yesteray. Downey had a small handicap ver Covert, scratch man, but he finished better than that in the lead. The suit of the race was as follows: Downey, 15 seconds, 26:15; Shanley, 30, 28 flat, 1:30, 28:02; Holland, 05, 1:55; Dougherty, 3, 27:55:0; Blummer, 00; 28:26; Covert, scratch, 29:22.

atlors to be on other territory than their own, and their presence in Quaker town will cause a great quick-ning of interest. The demand for of interest. The demand for has been so great that extra s are being constructed, it being ted that the Penn officials are eported that the Penn officials are taking arrangements to take care of more than 25,000 persons.

Jack Hegarty, former Georgetown layer, who is coach of the North arolina A and M team, is figuring on efeating the Blue and Gray again the asson. A and M won the contest a ear ago by 12 to 0, and Hegarty thinks he performance. And he does not

ate to say so.

Washington and Le is not making a secret of the fact that it thinks to get he long end of the score over the Hill-oppers this week. The eleven representing the Lexington school is said to be exceptionally strong, and its followers are anking on getting the long end of the score rather easily.

Both A. and M. and W. and L. are apt to be greatly surprised when they meet the Blue and Gray, though. Both those teams are figuring Georgetown

those teams are figuring Georgetown weaker this year than last because of the absence of Harry Costello, but they will be badly mistaken in that, as there appears little doubt that the Hilltoppers have a more powerful aggregation. team to score against than it was last season, and by the time it meets the other south Atlantic aggregations should have a much more fully developed of-fense.

CORNELL FINDS TWO STARS.

Shuler and Kleinert Showed Fine Foot Ball Ability in Indian Game. ITHACA, N. Y., October 13 .- As a re-

fine playing of Shuler and Kleinert in the last half of the Indian game last Saturday shifts in the Cornell back field are not improbable, according to the belief of men in close touch with the situation. No changes were made yesterday, as the varsity team held no regular outdoor practice, but the developments of the week will be awaited with keen interest on the hill. Shuler's splendid work against the In-

dians was a bit of the best backfield playing of the year here so far. He was very fast, dodged cleverly, and his ward-ing off of tacklers was most effective. Should he gain speed at starting he will become one of the best backs seen here

become one of the best backs seen here in some time.

Kleinert's line plunging also attracted much favorable comment Saturday, and he, too, is likely to make a strong bid for a place. His defensive work was not as good as Hill's, but he has been playing in the backfield only a short time.

Harper Wins Where Johnson Fails. PATERSON, N. J., October 13 .- Harry of the Washington Americans, did yesterday what Walter Johnson could not do Sunday, defeating the famous Lincoln Stars, 4 to 3. The game was played in Hackensack Home. Harper

struck out fifteen men. The Eskimo pays his doctor his fee as soon as he arrives. If the patient recovers it is kept, if not it is re-turned.

GOLFING HINTS. By "STRAIGHT DRIVE."

THE SLUGGER-An intimate friend of mine started playing golf as a veritable slugger years ago. He was tall, very strong, and put every ounce of force he could muster into the shot. He got terrific distances when he connected with the ball. After years of practice he gradually acquired a moderate degree of control and a good short game, and made remarkably low

Another friend, who likewise started golf on the theory that the game consists in hitting the ball as hard as possible, is likewise astounding the natives on a course near New York. He gets more crazy holes in one or two under par than any one I know, and yet seldom makes a card that he will acknowledge.

Still another man I know went into the game on the same theory scores on occasion.

Still another man I know went into the game on the same theory as No. 2. He continued in the mistaken class for several years, and would not listen to reason or argument, making cards anywhere from 97 to 112.

About a year ago this man, No. 3, commenced to reduce the brutality of his attack on the ball, to cut down the length of his back swing, and within three months he was playing frequent rounds in the low eighties, with occasional dips into the seventles.

WHITE SOX PROLONG SERIES.

Beat Cubs, 3 to 1, Cheney Being Hit Hard-Over 19,000 Present.

CHICAGO CITY SERIES STANDING.
W. L. Pet.
Sicago (N.), 3 2 .600 | Chicago (A.), 2 3 .400 CHICAGO, October 13.-The White Sox won yesterday, and the count in the Chicago city series now stands three that the progress will be just as steady in the future. The offense and defense were much stronger and the team as a whole looked better than any other Catholic University aggregation I have ever seen. Somebody may be surprised before the season is over. We have a good line and two pretty fair ends. Our backfield has been a little weak, but with Dobbins and Dougherty-behind the line it looks much more powerful.

"We play Villanova this Saturday, and while we may not win from that experienced team, a better showing than usual will be made. You can bank on that. And, something else, we are laying the foundation of a good tem for next year. Practically every man now out for foot ball will return in 1915, and the eleven then should be exceptionally strong. So much do I think of our prospects for another year that I would like very much to schedule a contest with Georgetown."

A practice scrimmage has been ar-

CITES NEW BANKING LAW'S ADVANTAGES

H. Parker Willis Discusses Financial System Before Bankers' Convention.

OBSTACLES TO STATE INSTITUTIONS EXPLAINED

Early Entry Into Fold Depends on Way Clearance Feature Is Handled, Reserve Board Official Declares.

RICHMOND, Va., October 13 .- Activities of the 2,000 American bankers here for their fortieth convention were centered today in sectional meetings of their subsidiary organizations. H. Parker Willis, secretary of the federal reserve board, opened the way to discussion of the nation's new financial system at a joint meeting of the trust ompany and savings bank sections He spoke, however, as a financial editor and not as a reserve board official.

There was no rigid requirement in the federal reserve act that would prevent state banks from entering the system, Mr. Willis said. They would merely have to conduct themselves in a general way on the basis of banking management required of national

to enter the system than to others enrusteeships. Mr. Willis said the main motive that

probably would impel state banks to join the new system would be found in the clearing mentioned. "If the clearance provision in the federal reserve act proves successful," said Mr. Willis, "it may be expected that business will be transferred to the member banks by those who will appreciate the immense advantage open to them as a result of the provisions freeing them from the oppressive conditions to which they have been subjected in regard to domestic exchange.

"We may say, therefore, that the early entry of state banks into the system depends in a very large measure on the way in which the clearance feature is handled and the extent to which the clearing function is taken over by the federal reserve banks under taken courageously and successfully, the result will be to enlarge very greatly the membership of the federal reserve system. This opinion I advance simply as a personal opinion."

Amendments Suggested. probably would impel state banks to join the new system would be found in the clearing mentioned. "If the clear-

He said that in a general way it had been found that the two principal obstacles to the entry of state institutions into the federal reserve system were:

"The existence of a large element of real estate loans in the portfolios of the institutions.

"The existence of what are called excessive loans," by which is meant loans to single persons or individuals greater than the amount permitted under the national banking law."

"It has been rightly assumed by the state institutions that they ought to eliminate these two grounds of criticism if they expect to enter the system," said Mr. Willis. "A good many have suggested that they be given a reasonable amount of time to comply with the requirements of the system, it being recommended that such time should include a period ranging from six months to three years."

Points Out Advantages.

under the national banking law."

"It has been rightly assumed by the state institutions that they ought to eliminate these two grounds of criticism if they expect to enter the system," said Mr. Willis. "A good many have suggested that they be given a reasonable amount of time to comply with the requirements of the system, it being recommended that such time should include a period ranging from six months to three years."

Points Out Advantages.

He pointed out that it would be of greater benefit to state banks and trust companies doing a commercial business to enter the system than to others en-

Up-River Waters. cial Dispatch to The Star HARPERS FERRY, W. Va. October 13.

The Potomac and Shenandoah rivers both were clear this morning.

GRAIN AND PROVISIONS.

CHICAGO.

CHICAGO, October 13.-Reports of beral European buying at Kansas City elped bring about an advance today in he wheat market here. The bulls were so assisted by continu also assisted by continued falling off in receipts at Winnipeg, and by the lightness of world shipments. The fact that seeding operations in Europe were decidedly backward counted further against the bears. After opening unchanged to 4 higher, prices made a general all-round upturn.

Wet weather, likely to delay the movement of the crop, put strength into

lack of speculative offerings. The open ing, which ranged from % to % higher was followed by a moderate additional gain.
Oats hardened with other cereals. Besides, rural holders were said to be showing an increased disposition to await better quotations.
Lower prices for hogs carried provisions downgrade. There was fair buying, however, at the decline.

Directors Elected.

At a meeting of the shareholders of the Washington-Virginia Railway Com-pany, largely attended by proxies, the following directors of the company were re-elected: Frederick H. Treat, Norman Grey, Gardner L. Boothe, Da vid A. Howe, Ashton G. Claphem, M. E. Church and R. W. King. Many of the directors were absent, being in attendance at the street railways' convention at Atlantic City, at the bankers' convention, Richmond, or elsewhere.

Better Conditions in Oil Markets.

Commenting on the present condition of the oil industry and the outlook for the future, the head of one of the leading companies hazarded the prediction

ing companies hazarded the prediction that the worst was over, and that it would not take long for the Standard Oil Company fully to recover from its recent setback.

This optimistic view is set forth in the following words:

"I think that the worst has passed as far as the oil industry is concerned. Conditions prevailing during the past few morths that were brought about by the immense flush production and the Firopean war are now gradually cleaing. Except in Oklahoma fields, the pipe lines are again taking all the crude oil production.

the pipe lines are again taking all the crude oil production.

"I think that the effect of the war on the big oil refining and marketing companies has been somewhat exaggerated. Although a few of the companies doing a big business with Europe have been hurt, the effect on most of them has not been very serious, and the big Standard Oil companies that were affected were financially well prepared for such an emergency. In other words, the Standard Oil companies generally are on a war footing financially. As soon as general conditions show a good improvement, it will not take the improvement, it will not take the Standard Oil companies long to recover

from their recent setback. Reopening of Exchange.

While many are clamoring for the opening of the New York exchange, the general impression at this time seems general impression at this time seems to favor closure until the beginning of 1915. To do business the situation must be cleared; the present holders of open trades would take them up if possible, as they are the chief objection to reopening, with the exception of the foreign holdings that might come back on our markets. The only way to prevent it is to put such value under American investments that Europe will be satisfied with their holdings—by giving the railroads of the ngs—by giving the railroads of the buntry the right to make their busi-

ness profitable.

The Baltimore and Ohio Railroad Company is giving wide circulation to the needed relief as expressed in the follow-

YOUNG CHECK PASSER CHASED BY CONGRESSMAN Capitol Police Join in Race and Lad

Is Captured and Sent

to Jail. Two congressmen, a Capitol policeman and a young man had an exciting chase through the Capitol today, the sprint ending when Capitol Policeman Lloyd caught the youthful stranger and turned him over to the metropolitan police. The trouble arose over a check which Representative Post of Ohio says he cashed for the young man. The representative, according to his story, was approached by the youth, who said he

ply that Ralph Walters was not in Vashington and not in need of funds Today Representative Claypool of Ohlo happened to mention to Representative Post that Ralph Walters was

n town and in financial stress. "Show him to me," said Mr. Post. The stranger was waiting in the Speaker's lobby. When he saw the Ohio representative approaching him, the representative says, he gave a quick glance at Mr. Post and ran. Capitol Policeman Lloyd headed the chase, which was in the direction of the Senate. The young man gave the name of William De Witt of Amherst, Va., at the station house.
